Publication appointed to the SE European Bird Migration Network papers

Abstract

Dicle Ringing Station is a field station in the campus of Dicle University, Diyarbakır (SE Turkey), and has been working since 2003. From that year it also belongs to the SEEN organization (SE European Bird Migration Network). The paper includes information collected during three autumn and one spring seasons. Totally, 5393 birds were ringed. Detailed information about study site and ringing results are reported in the paper.
